There is ongoing confusion regarding how to classify periodontal disease diagnoses. Classification systems provide a general frame work for studying the etiology, pathogenesis, and treatment of diseases.

Classification systems are useful in studying the full spectrum of diseases in large populations of patients.

This book (Over View on Classification of Periodontal Diseases) is a conclusive proof of many research findings to present this information in a concise, easily referenced format and to encourage newly qualified practitioners in a general practice setting, to maintain and further develop skills in diagnosis, treatment planning and treatment of periodontal conditions. It is our hope that this new book will be useful to dentists, periodontists, and dental students. This book is dedicated to our families, our friends and our lecturers.
