Procopius and the Sixth Century (Transformation of the Classical Heritage) Averil Cameron

Originally published by Duckworth and the University of California Press, *Procopius* is now available for the first time in paperback. Professor Cameron emphasises the essential unity of Procopius' three works and, starting from the 'minor' ones, demonstrates their intimate connection with the *Wars*. Procopius' writings are seen to comprise a subtle whole; only if they are understood in this way can their historical value be properly appreciated. The result is a new evaluation of Procopius which will be central to any future history of the sixth century.
