Conversations : Strategies for Teaching, Learning, and Evaluating Regie Routman

"Talking the process of change and teaching is a necessity for our intellectual and social well-being," says acclaimed author Regie Routman. Now, in this long-awaited volume, Routman continues the discussion she began in the best-selling *Invitations* and further explores the full universe of an effective language arts and literacy program across the curriculum. Filled with an array of field-tested teaching ideas, detailed strategies, reviews of theory, teacher-crafted lessons, and lists of resources, *Conversations* is all you need to become an informed, confident professional, sensitive to your students' needs and interests. What's more, it incorporates Routman's perspective on important topical issues such as curricular rigor, direct teaching, specific skills, and daily monitoring.

Conversations is grounded in the belief that the connections, interactions, reflections, and new thinking that evolve from rich dialogue define what we know. It was written, in part, to spur teachers to challenge assumptions, clarify their own learning, and take the lead in their own professional development. While this is not a book about a particular methodology, Routman does explore current theory and practice, and supports her views with classroom-based and scientific research. The book is upbeat and practical; each chapter is self-contained and can be read in any order. As Routman shares her own experiences and resources - through narratives, anecdotes, step-by-step demonstrations, and examples of students' work - we may find ourselves questioning, modifying, validating, or changing our own practices. Most of all, we will find ourselves *talking*. And here is where the conversation begins.

Text chapters: 656pp - The Blue Pages: Resources for Teachers: 240pp
