Robert L. Smith, Stephen L. Herman

Electrical Wiring Industrial: Based on the 2005 National Electric Code Robert L. Smith, Stephen L. Herman

Updated to the 2005 National Electrical Code, this revised edition takes readers step-by-step through the safe and effective wiring of an entire industrial building. A complete set of industrial building plans offers hands-on practice in effectively interpreting and applying Code requirements for the installation of electrical service, power, and lighting to an industrial structure. In addition to coverage of basic electrical principles and wiring requirements, this book also explores changeovers to new systems, planning for growth and increased capacity, and periodic maintenance procedures. Readers will surely benefit from the first-hand knowledge of the undertakings and responsibilities facing today's professional industrial electricians provided by this experienced author team.
