Current Research in Egyptology 2012: Proceedings of the Thirteenth Annual Symposium

The thirteenth Current Research in Egyptology (CRE) conference was held from the 27th - 30th March 2012 at the University of Birmingham and once again provided a platform for postgraduates and early career Egyptologists, as well as independent researchers, to present their research. These proceedings for CREXIII represent the wide-range of themes that were offered by delegates during the conference, and cover all periods of Egyptian history; from Predynastic skeletal analysis through to Egyptology during the Islamic Middle Ages. These twelve papers include gender studies, analysis of Egyptian festivals, revisiting of chronological models, archaeological reanalysis of ancient landscapes, as well as social, historical and linguistic studies allowing a new appraisal of many aspects of Egyptian culture and history.
