How Learning Works: Seven Research-Based Principles for Smart Teaching Susan A. Ambrose, Michael W. Bridges, Michele DiPietro, Marsha C. Lovett, Marie K. Norman

Distilling the research literature and translating the scientific approach into language relevant to a college or university teacher, this book introduces seven general principles of how students learn. The authors have drawn on research from a breadth of perspectives (cognitive, developmental, and social psychology; educational research; anthropology; demographics; organizational behavior) to identify a set of key principles underlying learning, from how effective organization enhances retrieval and use of information to what impacts motivation. Integrating theory with real-classroom examples in practice, this book helps faculty to apply cognitive science advances to improve their own teaching.

From reader reviews:

Myrtle Hamer:

People live in this new time of lifestyle always attempt to and must have the free time or they will get wide range of stress from both daily life and work. So , when we ask do people have free time, we will say absolutely without a doubt. People is human not really a huge robot. Then we consult again, what kind of activity do you have when the spare time coming to anyone of course your answer will unlimited right. Then ever try this one, reading guides. It can be your alternative in spending your spare time, the book you have read is usually How Learning Works: Seven Research-Based Principles for Smart Teaching.

Dwight Ambrose:

Are you kind of stressful person, only have 10 or 15 minute in your moment to upgrading your mind proficiency or thinking skill also analytical thinking? Then you are having problem with the book in comparison with can satisfy your short period of time to read it because this time you only find e-book that need more time to be study. How Learning Works: Seven Research-Based Principles for Smart Teaching can be your answer as it can be read by a person who have those short time problems.

Marlin Brogan:

Is it a person who having spare time and then spend it whole day by simply watching television programs or just laying on the bed? Do you need something totally new? This How Learning Works: Seven Research-Based Principles for Smart Teaching can be the response, oh how comes? A book you know. You are and so out of date, spending your spare time by reading in this new era is common not a geek activity. So what these publications have than the others?

Elda Baggett:

As a college student exactly feel bored to help reading. If their teacher asked them to go to the library or to make summary for some book, they are complained. Just minor students that has reading's soul or real their passion. They just do what the teacher want, like asked to go to the library. They go to generally there but nothing reading very seriously. Any students feel that examining is not important, boring and also can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore this How Learning Works: Seven Research-Based Principles for Smart Teaching can make you really feel more interested to read.
