## State Medical Licensure Requirements and Statistics 2010

This is the single authoritative source for complete, state-by-state medical licensure requirements. As change continues to reshape the health care industry, more and more physicians need to relocate, accept a job-related transfer, or seek licensure in several states. This new 2010 edition of "State Medical Licensure Requirements and Statistics" - updated annually by the American Medical Association - presents up-to-date information on medical licensure requirements and statistics in the United States for allopathic and osteopathic physicians, recruiters, employers, and consultants who need complete, authoritative, state-by-state licensure information in one convenient volume. All data in this invaluable resource are compiled from information received from primary sources - state boards of medical and osteopathic examiners - so there's no need to look any further to find the facts and figures you need. Included are 35 tables highlighting these and other data: state-by-state licensing requirements, including examination and endorsement fees; licensure re-registration and CME requirements; examination pass/fail percentages; and, details about available licenses (including inactive, retired, and camp licenses) and fees. "State Medical Licensure Requirements and Statistics" includes information on the Educational Commission for Foreign Medical Graduates, the Federation of State Medical Boards, the National Board of Medical Examiners, the National Board of Osteopathic Medical Examiners, and the United States Medical Licensing Examination, as well as licensure in the Air Force, Army, and Navy. A unique combination of data and articles makes this book helpful for personal reference, research, and credentialing. This edition also contains QuickConsult information on medical licensure and medical education organizations; a glossary that defines key medical licensure terms; and, contact information for all US medical/osteopathic boards, including phone, fax, e-mail, and web site.
