Every society and every generation has its version of the apocalypse: swine flu, genetic mutation, global warming, nuclear fallout, the second coming, peak oil, mass extinction, giant irradiated ants, zombies...

Apocalypse Now: Poems and Prose from the End of Days is the first anthology of its kind to bring together the poetry and prose of some of America's finest (though not always most well-known) literary voices with an eye for the literary and the popular, for story and lyric, for the past and the future, for the psychological and the physical, for the real and the fantastic.
