## Converging Clinical and Engineering Research on Neurorehabilitation (Biosystems & Biorobotics)

Restoring human motor and cognitive function has been a fascinating research area during the last century. Interfacing the human nervous system with electro-mechanical rehabilitation machines is facing its crucial passage from research to clinical practice, enhancing the potentiality of therapists, clinicians and researchers to rehabilitate, diagnose and generate knowledge. The 2012 International Conference on Neurorehabilitation (ICNR2012) brings together researchers and students from the fields of Clinical Rehabilitation, Applied Neurophysiology and Biomedical Engineering, covering a wide range of research topics: · Clinical Impact of Technology · Brain-Computer Interface in Rehabilitation · Neuromotor & Neurosensory modeling and processing · Biomechanics in Rehabilitation · Neural Prostheses in Rehabilitation · Neuro-Robotics in Rehabilitation · Neuromodulation This Proceedings book includes general contributions (2-page extended abstracts) from oral and poster sessions, as well as from special sessions. A section is also dedicated to pre-post conference workshops, including invited contributions from internationally recognized researchers. A selection of most relevant papers have been considered for publication in international journals (e.g. JNER, JACCES, ...), therefore they will appear soon in their extended versions in Special Issues. These Proceedings also contain brief descriptions of keynote lectures from invited world-class professors, and a number of thematic round tables covering technological and institutional issues.

### **From reader reviews:**

#### **Sharon Hall:**

As people who live in the modest era should be up-date about what going on or facts even knowledge to make them keep up with the era that is certainly always change and progress. Some of you maybe will update themselves by studying books. It is a good choice for yourself but the problems coming to you is you don't know what one you should start with. This Converging Clinical and Engineering Research on Neurorehabilitation (Biosystems & Biorobotics) is our recommendation to help you keep up with the world. Why, because this book serves what you want and want in this era.

#### **Jose Carr:**

Do you among people who can't read pleasant if the sentence chained from the straightway, hold on guys this particular aren't like that. This Converging Clinical and Engineering Research on Neurorehabilitation (Biosystems & Biorobotics) book is readable by simply you who hate the perfect word style. You will find the data here are arrange for enjoyable examining experience without leaving perhaps decrease the knowledge that want to supply to you. The writer involving Converging Clinical and Engineering Research on Neurorehabilitation (Biosystems & Biorobotics) content conveys objective easily to understand by many people. The printed and e-book are not different in the content but it just different as it. So , do you even now thinking Converging Clinical and Engineering Research on Neurorehabilitation (Biosystems & Biorobotics) is not loveable to be your top collection reading book?

#### **Julia Barr:**

People live in this new day time of lifestyle always try and and must have the extra time or they will get lots of stress from both everyday life and work. So , once we ask do people have time, we will say absolutely yes. People is human not really a robot. Then we inquire again, what kind of activity do you have when the spare time coming to you of course your answer can unlimited right. Then ever try this one, reading textbooks. It can be your alternative within spending your spare time, the actual book you have read is definitely Converging Clinical and Engineering Research on Neurorehabilitation (Biosystems & Biorobotics).

#### **Jeffrey Cooks:**

Don't be worry for anyone who is afraid that this book will probably filled the space in your house, you can have it in e-book method, more simple and reachable. This Converging Clinical and Engineering Research on Neurorehabilitation (Biosystems & Biorobotics) can give you a lot of buddies because by you checking out this one book you have issue that they don't and make an individual more like an interesting person. This particular book can be one of one step for you to get success. This publication offer you information that perhaps your friend doesn't know, by knowing more than some other make you to be great men and women. So , why hesitate? Let us have Converging Clinical and Engineering Research on Neurorehabilitation (Biosystems & Biorobotics).
