American Meltdown: Book Two of The Economic Collapse Chronicles (Volume 2) Mark Goodwin
Written from a Christian constitutional worldview, American Meltdown, Book Two of The Economic Collapse Chronicles uses dystopian fiction to take an in-depth look at the economic and political trends that have taken America to the edge of bankruptcy. The book assesses the current course of the nation and projects it into the near future. In Book Two, America has entered into a full scale financial meltdown. The members of the Bair family do the best they can to navigate a complete currency collapse and the social disruptions that come with it. Having relocated to a rural area in Kentucky, the Bairs fare much better than the unfortunate masses still trapped in the cities. In an effort to cling to power, President Anthony Howe announces the confiscation of provisions and guns. Several states, led by liberty-loving Senator Paul Randall, stand up to assert their sovereignty. Knowing the intentions of the Federal Government, Matt, Adam and Wesley Bair train with the local militia who have determined to draw a line in the sand and defend the last remnants of liberty. The political conflict escalates into military aggression and the gloves come off.
