- **Keep It Lightweight**-Reduce the effort required to interact with a site by using In Context Tools to leave a "light footprint"
- **Stay on the Page**-Keep visitors on a page with overlays, inlays, dynamic content, and in-page flow patterns
- **Provide an Invitation**-Help visitors discover site features with invitations that cue them to the next level of interaction
- **Use Transitions**-Learn when, why, and how to use animations, cinematic effects, and other transitions
- **React Immediately**-Provide a rich experience by using lively responses such as Live Search, Live Suggest, Live Previews, and more
