The Truth?? You Struggle with Exercising Because of Specific Workout Obstacles

Here's the thing...most people have both the desire and capacity to exercise, but they never get started because they allow obstacles to get in their way.

For instance, you might feel exhausted when your alarm clock goes off two hours earlier than usual in the morning, so you can't bring yourself to make it to "boot camp" class. Or perhaps you don't have space in your house for lots of weights and equipment. These are real-life obstacles, and it's likely that issues such as these have prevented you from engaging in regular exercise.

In the book "Exercise Every Day", you will have the opportunity to identify those obstacles that seem to continually get in your way. Then you will learn how to review each obstacle and identify the specific solutions to experience a personal breakthrough.
