Applications of Pressure-Sensitive Products (Handbook of Pressure-Sensitive Adhesives and Products)

Presenting the end-use and application technologies of pressure-sensitive adhesives and products, Volume Three of the *Handbook of Pressure-Sensitive Adhesives and Products* discusses the build up and classes of pressure-sensitive products, the main representatives of pressure-sensitive products, and their application domains. It divides the main product classes of solvent-based, water-based, and hot-melt-based formulations by their debonding characteristics and water and temperature resistance, and illustrates build-up by adhesive-coated, adhesiveless, carrierless, and linerless pressure-sensitive products. It presents application technology, equipment, and novel products such as RFID, medical, and labels, as well as the self-adhesive competitors of pressure-sensitive products. It also lists professional organizations and suppliers, along with the main literature sources.
