**Organic Synthesis Workbook** Jan-Arne Gewert, Jochen Görlitzer, Stephen Götze, Jan Looft, Pia Menningen, Thomas Nöbel, Hartmut Schirok, Christian Wulff

From the Foreword written by Erick M. Carreira:

"... The Organic Synthesis Workbook is an ideal compilation of state-of-the art modern syntheses which wonderfully showcases the latest advances in synthetic chemistry in combination with fundamentals in a question-and-answer format. The structure of the book is such that the reader can appreciate the intricacies of strategic planning, reagent tailoring, and structural analysis within the context of the individual synthetic targets. In providing highlights of synthesis from a wider range of natural products classes (alkaloids, terpenes, macrolides) the reader is given a tour through a broad range of reaction chemistry and concepts. Moreover, because in its scope the authors have ignored international borders, the book effectively parlays the global aspect of current research in the exciting field of organic synthesis...

The Organic Synthesis Workbook promises to be to the current generation of graduate students, and even "students-for-life", what Ireland's and Alonso's books were to those of us who were graduate students in the 80's [Alonso: The Art of Problem Solving in Organic Chemistry, Ireland: Organic Synthesis]. The authors have wonderfully captured the thrill, the enjoyment, and the intellectual rigor that is so characteristic of modern synthetic organic chemistry."

**From reader reviews:**

**John Street:**

The book Organic Synthesis Workbook can give more knowledge and information about everything you want. Why must we leave the good thing like a book Organic Synthesis Workbook? Several of you have a different opinion about e-book. But one aim that book can give many info for us. It is absolutely proper. Right now, try to closer along with your book. Knowledge or details that you take for that, it is possible to give for each other; you could share all of these. Book Organic Synthesis Workbook has simple shape but the truth is know: it has great and massive function for you. You can seem the enormous world by wide open and read a e-book. So it is very wonderful.

**Anna Bailey:**

Typically the book Organic Synthesis Workbook will bring that you the new experience of reading a new book. The author style to spell out the idea is very unique. When you try to find new book to read, this book very suitable to you. The book Organic Synthesis Workbook is much recommended to you to see. You can also get the e-book from official web site, so you can more readily to read the book.

**Pedro Lewis:**

The book untitled Organic Synthesis Workbook contain a lot of information on it. The writer explains your ex idea with easy means. The language is very easy to understand all the people, so do not really worry, you can easy to read that. The book was authored by famous author. The author provides you in the new age of literary works. You can read this book because you can keep reading your smart phone, or gadget, so you can read the book with anywhere and anytime. In a situation you wish to purchase the e-book, you can open their official web-site in addition to order it. Have a nice examine.

**Jeffrey Martinez:**

Reading a book make you to get more knowledge from the jawhorse. You can take knowledge and information from your book. Book is written or printed or descriptive from each source which filled update of news. With this modern era like today, many ways to get information are available for you actually. From media social including newspaper, magazines, science reserve, encyclopedia, reference book, book and comic. You can add your understanding by that book. Do you want to spend your spare time to spread out your book? Or just trying to find the Organic Synthesis Workbook when you necessary it?
