Community Development Across the World: Practice, Theory, Research, Training

Community Development Across the World: Practice, Theory, Research, Training

New social structures, agencies, and social movements have had a dramatic impact on community development across the world. In this book, more than forty authors in six countries representing the major regions of the world offer a truly global perspective on the changing nature of the practice and theory of community development.

The collection approaches community development from many different angles, featuring a critical review of the international literature, twenty detailed case studies dealing with key issues, and separate country-by-country studies of education, research, and theory. Despite obvious differences between countries in their economic, political, and socio-cultural contexts of practice, common themes emerge. The book concludes with a new framework theory for use in policy development, program planning, and alternative practice.

Comprehensive and challenging *Community Development Around the World* is essential reading for students, analysts, and practitioners in the field.
